

Activity Stream

Last Modified on 03/11/2020 11:00 am EDT

The screenshot shows the 'Activity Stream' page for a project named 'Waterview Assisted Living (Renovations) (Somers, NY)'. The page header includes the Capricorn Construction Company logo, contact information (845) 242-4721, and navigation links for 'Projects', 'Vendors', and 'Search The Blue Book'. A user profile for 'Ed Haage' is visible in the top right. The main content area features a navigation bar with buttons for 'Activity Stream', 'Project Details', 'Project Files', 'Project Contacts', 'Project Reports', and 'Equipment Quotes'. Below this is a message composition area with a rich text editor containing the text: 'Bill, I appreciate you preparing a roofing bid for us on this project. The architect specified a built-up roofing system. Please come to my office at 10am tomorrow so we can discuss. Thanks, Ed'. The editor includes a toolbar with bold, italic, underline, and text color options, as well as a font family dropdown set to 'Helvetica'. Below the editor are buttons for 'Add/Remove Files', a 'Send To' dropdown menu set to 'Activity Stream', and a 'Send' button. At the bottom of the composition area are buttons for 'Refresh Activity Stream', 'Load More...', a 'Filter by Contractor' dropdown, and a 'Hide System Messages' checkbox. The activity stream itself shows a message from 'OneTeam' sent to 'Capricorn Construction Company' on February 7th, 2020, at 06:33 PM EST. The message content is: 'PLM Landscape Co. updated their bid notes: We will bid this project and include the entire scope.' Below the message are 'Reply' and 'Got it: 0' options.

Your “Activity Stream” facilitates, organizes, and centralizes all of your project’s communication, collaboration, and bid submittals. It also updates you on the actions that you have taken on the project like messages you sent and files you uploaded to the plan room. All messages – yours, your subs, and system messages – are date and time stamped.

We understand that you may not have time to review your project’s “Activity Stream” every day during the bid so when a sub or supplier posts a message for your review and response ONETeam will email you an alert the next business day.
