

Find Projects - Video Introduction

Last Modified on 01/14/2021 8:37 am EST

The Blue Book Network is pleased to announce that all active GC ONETeam users now have free, seamless access to our complete list of reported planning and bidding phase projects.

[Click here](#) for a quick introduction!

The screenshot displays the ONETeam project search interface. At the top, the Capricorn Construction Co. logo and contact information are visible. The main navigation bar includes 'Projects', 'Vendors', 'Find Projects', and 'Search The Blue Book'. The central area features a large map of the United States with a red overlay indicating project locations, and a prominent '18,760 Unique Projects' statistic. A video player icon is overlaid on the map. To the right, there are filter sections for 'Planning - Bidding' (with checkboxes for Planning and Bidding) and 'Structure' (with a list of project types such as Airport, Hospital, School, etc.). A 'Project Location' map is also visible below the main map.
